YOUR
SUPERPOD®
OUTSIDE**

Modernist Podhouse®

Superpod® is not just a rigorous passive house building envelope designed for top performance.

It's customisable inside and out!

MODERNIST PODHOUSE®

Our core Podhouse® is clean and uncluttered, based on the Modernist ethos of 'form follows function'.

Strong lines, industrial aesthetic, plain colour, minimalism.

Great architects like Le Corbusier, Eames and Mies van der Rohe inspire us.

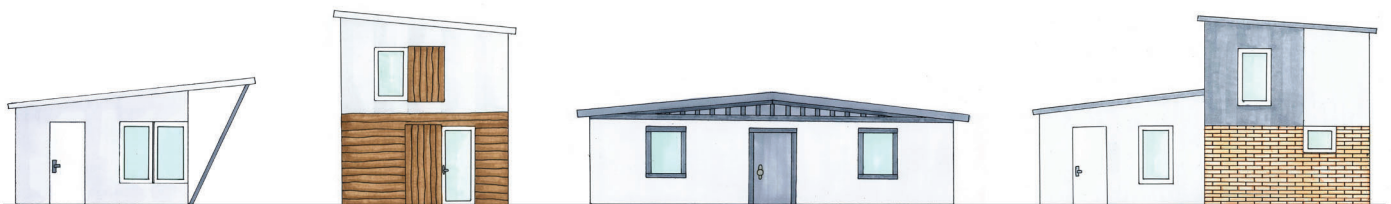

High performing materials, put together beautifully. That's Modernist!

FLEXIBLE FACADES

You can change your Podhouse® facade while retaining our robust building envelope.

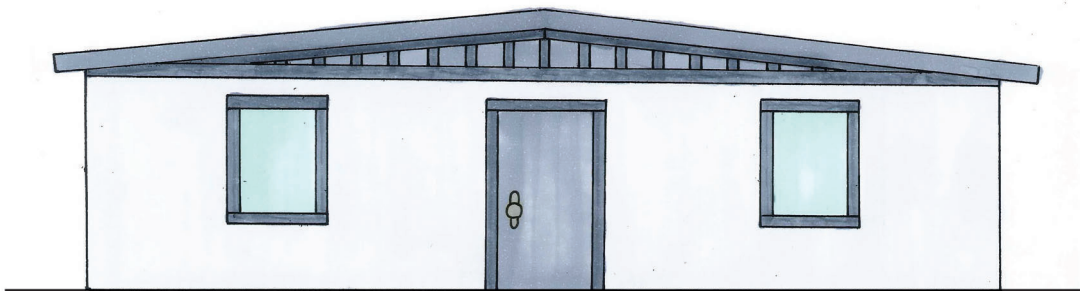

A robust well designed building shell

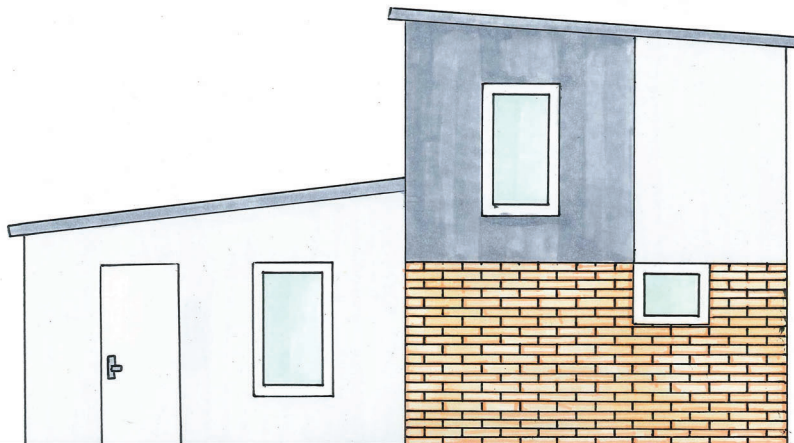

NATURAL PODHOUSE® Add timber cladding for a more organic look.

CLASSIC PODHOUSE® Period details reference traditional architecture.

TREND PODHOUSE® Different colour and texture blocks for what's in vogue.
